ZERO's Impact in New Hampshire

Patient Programs

- ZERO360 is ZERO's comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO Support Groups and MENtor programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.

ZERO Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer and help all who are impacted. ZERO advances research, provides support, and creates solutions to achieve health equity to meet the most critical needs of our community. Visit our website: www.zerocancer.org

Dartmouth College	1997	\$455159
Dartmouth College	2014	\$381567
Dartmouth College	2008	\$354079

CDC’s National Comprehensive Cancer Control Program (NCCCP) Funding in New Hampshire:

- Increase the number of men age 40 and older who report having discussed prostate cancer screening with their healthcare providers (in other words, those who have made an informed decision about the screening) to 73% (baseline 68.0%, 2008). In 2009, there is no consensus among national organizations regarding prostate cancer screening. Both the ACS and the United States Preventive Services Task Force recommend that men engage in shared decision making with their physicians. To help New Hampshire men determine what is best for their needs, the NH CCC will continue to work closely with the NH0PCC to encourage informed decision making between men and their healthcare providers.
- Strategy: Continue to work with the NHPCC through members’ presence on the NHCCC prevention and early detection work group.
- Strategy: Continue to support the NHPCC’s strategic goals.
