ZERO's Impact in Delaware

Patient Programs

- ZERO360 is ZERO's comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO Support Groups and MENtor programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.

ZERO Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer and help all who are impacted. ZERO advances research, provides support, and creates solutions to achieve health equity to meet the most critical needs of our community. Visit our website: www.zerocancer.org

University Of Delaware	1999	\$375398

CDC’s National Comprehensive Cancer Control Program (NCCCP) Funding in Delaware:

- GOAL 1: Continue the Cancer Screening Nurse Navigator program to promote colorectal, prostate, breast, and cervical cancer screening. Total cost for this Goal over the 5 year period of this plan: \$7,500,000.
- Objective 1B: Achieve a 50% increase in the number of men 50-75 (or life expectancy of 10 years) and high_risk men starting at age 40 reporting that they have discussed prostate cancer screening with a health care provider.
- Task/action: Determine baseline number of men 50-75 (or life expectancy of 10 years) and high_risk men starting at age 40 reporting that they have discussed prostate cancer screening with a health care provider (year 1). Increase dissemination of DCC prostate cancer screening recommendations to health care providers (year 1 and ongoing). Reevaluate data received regarding men 50-75 (or life expectancy of 10 years) and high_risk men starting at age 40 reporting that they have discussed prostate cancer screening with a health care provider (year 2 and ongoing).
- GOAL 2: Reimburse colorectal, prostate, breast, and cervical cancer screening for Delawareans who meet age and income eligibility guidelines. Total cost for this Goal over the 5 year period of this plan: \$3,469,900.
- OBJECTIVE 2A: Continue annual allocation for colorectal, prostate, cervical, and breast cancer screening for men and women ineligible for federally funded screening.

2023 Prostate Cancer Facts & Statistics

- Task/action: Reimburse providers through the Screening for Life program for services for cancer screening for men and women.
- OBJECTIVE 2B: Add continued surveillance as a Screening for Life covered service for clients served through the Delaware Cancer Treatment Program.
- Task/action: Determine acceptable surveillance procedures for coverage. Allocate annual allotment of SFL funding to cover surveillance procedures for patients diagnosed with cancer who have income between 251% and 650% of the Federal Poverty Level. Revise allocation based on actual costs and projections.
