ZERO’s Impact in New Mexico

Patient Programs

- ZERO360 is ZERO’s comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO Support Groups and MENtor programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.

ZERO Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer and help all who are impacted. ZERO advances research, provides support, and creates solutions to achieve health equity to meet the most critical needs of our community. Visit our website: www.zerocancer.org

CDC’s National Comprehensive Cancer Control Program (NCCCP) Funding in New Mexico:

- **Goal:** Increase culturally and linguistically competent and effective education about appropriate screening services for the early detection and/or prevention of cancer among New Mexicans.

- **Objective:** Increase the number of men, especially those at high risk, who receive state-of-the-art, culturally and linguistically appropriate information about prostate cancer and screening, by 2017.

- **Goal:** Reduce disparities and inequities in access to appropriate and effective cancer prevention, screening, diagnosis, treatment, care and survivor services.

- **Objective:** Support efforts to analyze data on cancer disparities in New Mexico in order to identify strategies to reduce inequalities in cancer control and prevention. Promote data reports to Council members through listserv and to legislators, the Governor’s Office and the press prior to the start of the legislative session (60-day sessions) by 2017.

- **Objective:** Improve access to cancer prevention, screening, diagnosis, treatment, care and survivor services Complementary and Alternative (CAM) services and clinical trials, especially among minority and rural populations, and among low-income, underinsured, and uninsured populations, by 2017, through expanding patient navigation services.

- **Objective:** Increase use of age specific cancer screening using U.S.P.S.T.F. or other nationally recognized evidence-based recommendations for all NM populations.
Objective: Promote/encourage culturally and linguistically competent providers and approaches when addressing issues of access, especially among minority and rural populations, and among low-income, underinsured, and uninsured populations, by 2017.
