ZERO's Impact in Wyoming

Patient Programs

- ZERO360 is ZERO's comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO Support Groups and MENtor programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.

ZERO Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer and help all who are impacted. ZERO advances research, provides support, and creates solutions to achieve health equity to meet the most critical needs of our community. Visit our website: www.zerocancer.org

 Total Grand Awards Through FY 2021*: 523209

**PCRP data for FY 2022 has not yet been posted*

Grant Recipient	Year	Amount
University Of Wyoming	2012	\$523209

CDC’s National Comprehensive Cancer Control Program (NCCCP) Funding in Wyoming:

- Goal: Reduce the prostate cancer death rate among Wyoming men.
- Objective: By 2015, increase the percentage of men age 50 and older who report they have been screened for prostate cancer within the past two years to 55%. Baseline: BRFSS 2008 = 50.4%.
- Objective: By 2015, create a Prostate Cancer Task Force to guide prostate education and outreach efforts in Wyoming. Baseline: This type of resource is not currently provided to Wyoming residents.
- Strategy: Develop a prostate cancer task force of interested stakeholders to address the following: a.) Increase awareness of prostate cancer. b.) Increase education about prostate cancer in order to make informed decisions about testing, treatment and after-treatment options to enhance quality of life. c.) Increase and promote early detection of prostate cancer. d.) Overcome cultural and income barriers to testing and treatment for prostate cancer. e.) Advocate for prostate cancer legislation and funding. f.) Facilitate the creation of prostate cancer support groups in Wyoming and develop a network of those support groups throughout the state. g.) Collaborate with the WCCCC and other state organizations, healthcare providers, groups, and citizens to further the Task Force’s mission statement.
- Strategy: Identify the financial barriers of uninsured and underinsured males as they relate to prostate cancer screening and consultation with a healthcare provider regarding informed decision-making.
