ZERO's Impact in Indiana

Patient Programs

- **ZERO360** is a free, comprehensive support service that helps patients and their loved ones navigate insurance, find resources to help pay for treatment and living expenses, connect with emotional support services, and ensure access to care.
- **ZERO's nationwide Us TOO support group network** offers a variety of peer-led virtual and in-person groups offering emotional support, resources, and education to empower those impacted by prostate cancer to make informed decisions about their care.
- **ZERO's MENtor program** matches patients with trained, volunteer MENtors who have been on a similar journey to provide ongoing, one-on-one support.
- **ZERO Connect** is our online private Facebook group where you can connect with others affected by prostate cancer, ask questions, and learn from their experiences.

CDC's National Comprehensive Cancer Control Program (NCCCP) Funding in Indiana:

- **By 2014, increase the percentage** of men aged 40 and older who have had an individual discussion with their health care providers regarding the risks and benefits of prostate cancer screening from 49 percent to 57 percent as measured by the Indiana Behavioral Risk Factor Surveillance System.
- **Support efforts** that promote informed decision making about prostate cancer screening.
- **Distribute information** to primary care physicians and primary care extenders about prostate cancer risk and screening.
- **Offer** culturally sensitive education to the public regarding prostate cancer screening.
- **Implement** existing evidence based practices to address prostate cancer screening issues.
- **Disseminate information** about prostate cancer and screening issues to the public via multiple settings.
- **Utilize** community-based organizations to hold informational sessions about prostate cancer. Organize church-based educational programs and health fairs to promote informed decision making.
- **Create** an educational program utilizing community health workers to deliver important messages about prostate cancer and screening.
- **Develop** computer programs to increase appropriate decisions regarding prostate cancer screening.
