Source: Estimates based on 2024 data from the American Cancer Society

ZERO's Impact in Oregon

Patient Programs

- **ZERO360** is a free, comprehensive support service that helps patients and their loved ones navigate insurance, find resources to help pay for treatment and living expenses, connect with emotional support services, and ensure access to care.
- **ZERO's nationwide Us TOO support group network** offers a variety of peer-led virtual and in-person groups offering emotional support, resources, and education to empower those impacted by prostate cancer to make informed decisions about their care.
- **ZERO's MENtor program** matches patients with trained, volunteer MENtors who have been on a similar journey to provide ongoing, one-on-one support.
- **ZERO Connect** is our online private Facebook group where you can connect with others affected by prostate cancer, ask questions, and learn from their experiences.

	2019	\$1,154,510
	2016	\$1,535,750
	2008	\$1,334,947

CDC's National Comprehensive Cancer Control Program (NCCCP) Funding in Oregon:

- **Goal:** Reduce deaths from prostate cancer among all Oregon men. Increase informed and shared decision-making between men and their health care providers regarding the risks and benefits of prostate cancer screening and treatment.
- **Goal:** Reduce mortality rate by 2% to 28.8/100,000 in 2010 (baseline 29.4/100,000 in 2002).
- **Objective:** Increase the proportion of Oregonians who receive accurate, evidence-based information about prostate cancer screening and treatment.
- **Strategy:** Develop a comprehensive educational message regarding major issues related to prostate cancer.
- **Strategy:** Provide education about prostate screening to men at high risk, specifically African American men and men with a family history of prostate cancer.
- **Strategy:** Identify and develop effective education programs and materials, including appropriate communication strategies about prostate cancer screening.
- **Strategy:** Provide culturally sensitive and linguistically appropriate education materials about prostate cancer screening risks and benefits, treatment options and quality of life issues.
- **Strategy:** Increase adherence to proven prostate cancer treatment modalities.
- **Objective:** Increase the proportion of health care providers who receive accurate and scientifically sound education about prostate cancer screening.
- **Strategy:** Develop methods to assess provider knowledge and understanding about prostate cancer screening issues.
- **Strategy:** Provide education to primary care providers about the risks and benefits of prostate cancer screening.

(continued from previous page) CDC's National Comprehensive Cancer Control Program (NCCCP) Funding in Oregon:

- **Objective:** Monitor research in primary, secondary and tertiary prevention.
- **Strategy:** Provide education to health care providers and men about clinical trials.
- **Strategy:** Interpret and translate research findings about prostate screening and treatment to the public.
- **Strategy:** Continue to monitor scientific research and recommendations of professional organizations for prostate cancer screening and treatment.
- **Objective:** Establish a blue-ribbon committee of health care, business and community organizations, along with cancer survivors and others, to define the agenda for prostate cancer education, screening and treatment in Oregon.
- **Strategy:** Provide a forum for discussions about prostate cancer screening and treatment.
- **Objective:** Increase the data collection and analysis specific for underserved Oregonians.
- **Strategy:** As data collection improves, include race- and ethnicity-specific cancer data and analysis for the most common cancer sites (breast, colorectal, cervical, lung, prostate) in the Oregon State Cancer Registry (OSCaR) annual report.

ZERO Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer. ZERO advances research, improves the lives of men and families, and inspires action. Visit our website: www.zerocancer.org.
