CDC's National Comprehensive Cancer Control Program (NCCCP) Funding in Wyoming:

- **Goal:** Reduce the prostate cancer death rate among Wyoming men.
- **Objective:** By 2015, increase the percentage of men age 50 and older who report they have been screened for prostate cancer within the past two years to 55%. Baseline: BRFSS 2008 = 50.4%.
- **Objective:** By 2015, create a Prostate Cancer Task Force to guide prostate education and outreach efforts in Wyoming. Baseline: This type of resource is not currently provided to Wyoming residents.
- **Strategy:** Develop a prostate cancer task force of interested stakeholders to address the following:
 - a.) Increase awareness of prostate cancer. b.) Increase education about prostate cancer in order to make informed decisions about testing, treatment and after-treatment options to enhance quality of life.
 - c.) Increase and promote early detection of prostate cancer. d.) Overcome cultural and income barriers to testing and treatment for prostate cancer. e.) Advocate for prostate cancer legislation and funding.
 - f.) Facilitate the creation of prostate cancer support groups in Wyoming and develop a network of those support groups throughout the state. g.) Collaborate with the WCCCC and other state organizations, healthcare providers, groups, and citizens to further the Task Force's mission statement.
- **Strategy:** Identify the financial barriers of uninsured and underinsured males as they relate to prostate cancer screening and consultation with a healthcare provider regarding informed decision-making.
