ZERO's Impact in Delaware

Patient Programs

- ZERO360 is ZERO's comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO, MENtor, and Caregiver Connector programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.

ZERO – The End of Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer. ZERO advances research, improves the lives of men and families, and inspires action. Visit our website: www.zerocancer.org.

University of Delaware	2000	\$533,202.00
University of Delaware	1999	\$375,398.00

CDC’s National Comprehensive Cancer Control Program (NCCCP) Funding in Delaware:

- **Goal:** Continue the Cancer Screening Nurse Navigator program to promote colorectal, prostate, breast, and cervical cancer screening. Total cost for this goal over the five year period of this plan: \$7,500,000.
- **Objective:** Achieve a 50% increase in the number of men 50-75 (or life expectancy of 10 years) and high-risk men starting at age 40 reporting that they have discussed prostate cancer screening with a healthcare provider.
- **Task/Action:** Determine baseline number of men 50-75 (or life expectancy of 10 years) and high-risk men starting at age 40 reporting that they have discussed prostate cancer screening with a healthcare provider (year 1). Increase dissemination of DCC prostate cancer screening recommendations to healthcare providers (year 1 and ongoing). Reevaluate data received regarding men 50-75 (or life expectancy of 10 years) and high-risk men starting at age 40 reporting that they have discussed prostate cancer screening with a healthcare provider (year 2 and ongoing).
- **Goal:** Reimburse colorectal, prostate, breast, and cervical cancer screening expenses for Delawareans who meet age and income eligibility guidelines. Total cost for this goal over the five year period of this plan: \$3,469,900.
- **Objective:** Continue annual allocation for colorectal, prostate, cervical, and breast cancer screening for men and women ineligible for federally-funded screening.
- **Task/Action:** Reimburse providers through the Screening for Life program for services for cancer screening for men and women.
- **Objective:** Add continued surveillance as a Screening for Life-covered service for clients served through the Delaware Cancer Treatment Program.
