*Source: Estimates based on 2022 data from the American Cancer Society*

## ZERO's Impact in Idaho

### Patient Programs

- ZERO360 is ZERO's comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO, MENtor, and Caregiver Connector programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.

**ZERO – The End of Prostate Cancer** is the leading national nonprofit with the mission to end prostate cancer. ZERO advances research, improves the lives of men and families, and inspires action. Visit our website: [www.zerocancer.org](http://www.zerocancer.org).

# 2022 Prostate Cancer Facts & Statistics

## CDC's National Comprehensive Cancer Control Program (NCCCP) Funding in Idaho:

- **Objective:** Reduce premature deaths from prostate cancer.
  - **Target:** 3.9 deaths per 100,000 males aged 0-74 (target setting method and source: 10% improvement from Idaho baseline.).
  - **Idaho Baseline:** 4.3 prostate cancer deaths per 100,000 males aged 0-74 occurred in 2007 (age-adjusted to the year 2000 standard population).
  - **Objective:** Increase the proportion of men aged 50 and older who have ever talked to a health professional about the advantages and disadvantages of the prostate specific antigen (PSA) test.
  - **Target:** At least 31.2% of men aged 50 and older will report ever talking to a health professional about the advantages and disadvantages of the prostate specific antigen (PSA) test (target setting method and source: 10% improvement from Idaho baseline).
  - **Idaho Baseline:** In 2012, 28.4% of men aged 50 and older reported ever talking to a health professional about the advantages and disadvantages of the prostate specific antigen (PSA) test.
- 
- **Goal:** Monitor the development and implementation of screening and early detection methods for other cancers.
  - **Objective:** Disseminate updates to USPSTF cancer screen recommendations. Specific cancer screenings to address include: lung cancer, oral cancer, and prostate cancer
  - **Objective:** Disseminate information on novel methods for screening and early detection, including imaging technologies, genomics and proteomics
  - **Strategic Actions:** Collaborate with statewide organizations and partners to support and/or facilitate education to healthcare providers on updated and emerging cancer screening best practices from the USPSTF.

**ZERO – The End of Prostate Cancer** is the leading national nonprofit with the mission to end prostate cancer. ZERO advances research, improves the lives of men and families, and inspires action. Visit our website: [www.zerocancer.org](http://www.zerocancer.org).
