## ZERO's Impact in Kansas

### Patient Programs

- ZERO360 is ZERO's comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO, MENtor, and Caregiver Connector programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.

**ZERO – The End of Prostate Cancer** is the leading national nonprofit with the mission to end prostate cancer. ZERO advances research, improves the lives of men and families, and inspires action. Visit our website: [www.zerocancer.org](http://www.zerocancer.org).

## CDC’s National Comprehensive Cancer Control Program (NCCCP) Funding in Kansas:

- Objective: Increase the percentage of men aged 50 to 69 years who had a discussion with their provider about prostate cancer screening.

### Strategies

1. Develop and provide free professional education with CMEs/CNEs that includes discussions of advantages and disadvantages of prostate cancer screening to determine appropriate screening based on patient medical history/preferences.
2. Work with employers on adopting comprehensive employee wellness programs that include health education about informed decision-making and flex time/paid leave for provider visits about prostate cancer screening.
3. Develop and implement a comprehensive media campaign to promote wellness visits that include discussions about prostate cancer screening, particularly for African American men in urban areas.
4. Work with Kansas managed care providers to increase discussions about screening among newly insured or uninsured patients.
