## ZERO's Impact in Missouri

### Patient Programs

- ZERO360 is ZERO's comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO, MENtor, and Caregiver Connector programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.

**ZERO – The End of Prostate Cancer** is the leading national nonprofit with the mission to end prostate cancer. ZERO advances research, improves the lives of men and families, and inspires action. Visit our website: [www.zerocancer.org](http://www.zerocancer.org).

## CDC's National Comprehensive Cancer Control Program

- **Goal:** Increase the early detection of cancer by promoting the use of evidence- based screening guidelines
- **Objective 4:** By December 31, 2020, increase the percent of men who have discussed with their healthcare provider the advantages and disadvantages of the Prostate-Specific Antigen (PSA) test to screen prostate cancer (BRFSS)
- **Measure:** Ever been told by a health care provider about the advantages of the PSA test – from 61.1% in 2012 to 70% (BRFSS); Ever been told by a health care provider about the disadvantages of the PSA test – from 21.9% to 30% (BRFSS)
- **Target Audience:** Men ages 40 and older and populations at increased risk
- **Strategies:**
  1. Promote patient informed decision-making regarding prostate cancer screening
  2. Identify and provide education materials to encourage health care providers to recommend and deliver prostate cancer screenings based on the latest screening recommendations
