ZERO's Impact in New York

Patient Programs

- ZERO360 is ZERO's comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO, MENtor, and Caregiver Connector programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.
- ZERO Drive transportation program provides transportation-related financial assistance to prostate cancer patients who are unable to find reliable transportation for their prostate cancer care.

ZERO – The End of Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer. ZERO advances research, improves the lives of men and families, and inspires action. Visit our website: www.zerocancer.org.

CDC’s National Comprehensive Cancer Control Program (NCCCP) Funding in New York:

- **Priority Areas of Focus: Early Detection-** All New Yorkers will receive age-appropriate, evidence-based, guideline-driven screening services for the early detection of cancer.
- When cancer screening tests are not available or recommended, symptom recognition and prompt follow-up can be a benefit as early detection. In some cases, such as prostate and skin cancer, average risk screening is not recommended as standard practice. In these and in all cases, acknowledging the need to balance the benefits and potential harms of screening, individuals should talk with their healthcare provider about their individual risk factors and make an informed decision about getting screened.
