ZERO's Impact in Oregon

Patient Programs

- ZERO360 is ZERO's comprehensive patient navigation service that provides individualized case management to help patients and their families connect with financial assistance, navigate insurance, and find other kinds of support including emotional support and even transportation assistance.
- ZERO also offers peer-to-peer support through our Us TOO, MENtor, and Caregiver Connector programs. We match patients and caregivers with someone who has been on a similar journey to provide ongoing, one-on-one support. We also run a nationwide network of support groups for those affected by prostate cancer.
- ZERO Connect is our online private Facebook support group where you can connect with others affected by prostate cancer, learn from their experiences, and ask questions to patients and loved ones across the country.

ZERO – The End of Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer. ZERO advances research, improves the lives of men and families, and inspires action. Visit our website: www.zerocancer.org.

CDC’s National Comprehensive Cancer Control Program (NCCCP) Funding in Oregon:

- **Target for Change:** reduce deaths from prostate cancer among all Oregon men.
- **Goal:** Increase informed and shared decision-making between men and their healthcare providers regarding the risks and benefits of prostate cancer screening and treatment.
- **Objective:** Increase the proportion of Oregonians who receive accurate, evidence-based information about prostate cancer screening and treatment.
- **Strategy:** Develop a comprehensive educational message regarding major issues related to prostate cancer.
- **Strategy:** Provide education about prostate screening to men at high risk, specifically African American men and men with a family history of prostate cancer.
- **Strategy:** Identify and develop effective education programs and materials, including appropriate communication strategies about prostate cancer screening.
- **Strategy:** Provide culturally sensitive and linguistically appropriate education materials about prostate cancer screening risks and benefits, treatment options, and quality of life issues.
- **Strategy:** Increase adherence to proven prostate cancer treatment modalities.
- **Objective:** Increase the proportion of healthcare providers who receive accurate and scientifically sound education about prostate cancer screening.
- **Strategy:** Develop methods to assess provider knowledge and understanding about prostate cancer screening issues.
- **Strategy:** Provide education to primary care providers about the risks and benefits of prostate cancer screening.
- **Objective:** Monitor research in primary, secondary, and tertiary prevention.

ZERO – The End of Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer. ZERO advances research, improves the lives of men and families, and inspires action. Visit our website: www.zerocancer.org.

2022 Prostate Cancer Facts & Statistics

- **Strategy:** Provide education to healthcare providers and men about clinical trials.
- **Strategy:** Interpret and translate research findings about prostate cancer screening and treatment to the public.
- **Strategy:** Continue to monitor scientific research and recommendations of professional organizations for prostate cancer screening and treatment.
- **Objective:** Establish a blue-ribbon committee of healthcare, business, and community organizations, along with cancer survivors and others, to define the agenda for prostate cancer education, screening, and treatment in Oregon.
- **Strategy:** Provide a forum for discussions about prostate cancer screening and treatment.
- **Objective:** Increase the data collection and analysis, specifically for underserved Oregonians.
- **Strategy:** As data collection improves, include race- and ethnicity-specific cancer data and analysis for the most common cancer sites (breast, colorectal, cervical, lung, prostate) in the Oregon State Cancer Registry (OSCaR) annual report.
